## DEVELOPMENT SERVICES AND FIRE DEPARTMENTS

TO: All Development Services Department and Fire Department Customers

SUBJECT: **INFORMATION BULLETIN 114**  
Code Modification Request Procedures

DATE: October 31, 2006  
*Revised February 9, 2009*

---

As a customer service initiative, the City of San Antonio Development Services Department (DSD) and Fire Department (SAFD) have developed a formal Code Modification Request (CMR) process to allow the owner and/or owner's agent to apply for an alternative material, design and/or method of construction or other modification to any provision of the City's building construction codes. These codes include the City's *Building, Existing Building, Fire, Residential, Energy Conservation, Mechanical, Electrical and Plumbing* codes. The current list of adopted codes can be found at <http://www.sanantonio.gov/dsd/codes.asp>.

The CMR is required to show that the spirit, intent and minimum acceptable level of public health, welfare and safety are observed per the applicable code. Through this process, the City is attempting to resolve issues before appeals to the Board of Appeals become necessary. This process has been introduced to help expedite and evaluate your requests in a timely manner and will apply to all aspects of the applicable codes listed above.

Any modification request to the Unified Development Code (UDC) should be processed through an Administrative Exception/Variance Request (AEVR) (use [IB 124](#)). All non-zoning UDC modifications being requested are defined by the UDC as either administrative exceptions reviewed by the department, or as variance requests reviewed by Planning Commission. Zoning variances to the Board of Adjustments are handled through [Zoning staff](#).

### CMR Procedures

The following procedures are to be followed to help expedite the review of your CMR.

1. The CMR is to be submitted to the COSA DSD using the attached form with supporting documentation provided in the recommended format. The CMR will be logged-in with copies routed to the appropriate staff for review/recommendations.
2. One CMR is required for each item/code issue under consideration.
3. The supporting documentation for the CMR is to be prepared on company letterhead, signed and dated. See example provided.
4. The CMR must be signed and sealed by the Texas registered architect or licensed professional engineer of record when the modification request applies to a building or system that is required to be designed and sealed by the Texas Architectural Board Statute or Texas Engineering Practice Act.

5. The CMR must be signed by the Owner if administrative controls are included in the CMR. Examples include limitations on use of the building, space or material proposed; security measures; operational procedures; other.
6. Applicant is required to provide six (6) copies of each CMR and supporting documentation.
7. There is a \$350.00 fee for each CMR submitted for review and consideration. Applicant is to pay fee at the time of submission.
8. The applicant can deliver or mail CMR packages to:  

City of San Antonio  
Development Services Department  
Building Development Division  
Plans and Permits Section – Attn: Plans Management Staff  
1901 S. Alamo St.  
San Antonio, TX 78204
9. The CMR will be routed to the appropriate staff for review. After staff review of the CMR, COSA DSD or SAFD will respond to your CMR by approving your request, approving your request with additional requirements, or denying your request. In all cases, the ruling will be made in written form and the applicant will receive a copy of the ruling. If the CMR is approved, the applicant will be advised whether to submit revised building plans for approval and/or to attach a copy of the CMR form to the approved plans on the job site.
10. The estimated turnaround time for CMR review and action is ten (10) business days.

### Records

Your CMR application and the final decision of the Building or Fire Official shall be officially recorded in the permanent records of this department.

We hope that this new customer service initiative will help you complete your project or address your special situation. Should you have any questions regarding the Code Modification Request process, please contact a Development Services Engineer at 210-207-8394.

Should you be dissatisfied with the action/ruling taken on your CMR, you have the right to appeal the ruling to the appropriate Board of Appeals in accordance with the applicable codes listed above.

Re: Project Name  
A/P or Project Number (if applicable)  
Code Issue

Dear COSA Building or Fire Official,

*At a minimum, provide the following information in your code modification request letter:*

- ☒ *Introduction: Identify the project and state that you are requesting consideration of a modification or an alternate method of construction or materials.*
- ☒ *Code Issue: Identify the specific code section for which the Code Modification Request / Alternative Methods & Materials is proposed.*
- ☒ *Discussion / Justification: Provide rationale and supporting information, such as technical data, engineering calculations, results of actual field tests, requirements or allowances in other model codes, etc. that provide the basis for the City to accept the request. Proposed design documents (i.e., architectural or engineering plans) and supporting information listed above should be attached to the request as needed to clarify proposed request.*
- ☒ *Conclusion: Provide a summary statement such as “In my/our professional opinion, the proposed code modification / alternate method of construction / materials meets the intent of the Code and provides a level of safety equivalent to, or better than, that required by the Code”.*

Sincerely,

---
